

## Our Pride

We pride ourselves on the quality of our work and the ability to completely satisfy our customers and their needs. We strive to provide the highest standard of safety on all of Green Scaffolding Ltd. projects. Once involved, we are committed to accomplishing the goals set forth by our clients. We work honestly; effectively and above all, safely!

## Our Services

Whether it's commercial, residential, or an industrial workplace, we treat every job with the same safety standards. We offer a wide variety of different scaffolding solutions: basic towers, stair tower accesses, and overhead protection for walkways. For bigger projects we do: modular yard scaffolding, restoration scaffolding on buildings, engineered scaffolding, temporary structures and enclosures with hoarding or shrink wrap, and maintenance scaffolding on industrial sites. WE DO IT ALL!

## Our Model

**Scaffolding has a tagging system:**

**RED TAG** - means stop do not proceed; scaffold under construction.

**YELLOW TAG** - means proceed with caution; potential hazards may be present.

**GREEN TAG** - means the scaffold is 100% safe for use.

At Green Scaffolding, we offer our clients a safe solution to access any job.

We believe in safety first and we understand our role in construction. It is our job is to help and assist companies achieve and maintain the safest workplace. We take the personal approach with our clients and we believe in valuing every relationship so that we can all succeed with the utmost safety.

We hope you take the right steps for safety. Please visit us online at [www.greenscaffold.com](http://www.greenscaffold.com) Or call 587-745-0379 for free scaffold estimate.
